April 2009

Ref: Coil Protection treatment

To Whom it may concern.

We (SANYO) have used Bronz-glow for a number contracts and found that their quality of work and professionalism have reached sufficient levels for us to award them Partner Supplier status.

Bronz-glow are the only coil coating company to have achieved this status and therefore we would not hesitate to recommend them and their services for any project involving our equipment.

Best regards

**Bob Cowlard**
